Community Engagement Approach

- Scope and scale process appropriately
- Work with City Staff and Park Board
- Manage expectations
- Identify key issues
- Keep process efficient

Join the Conversation...

Community Engagement Strategy

Provide complete, objective, and balanced information based on research and expertise.

Listen to and acknowledge concerns and aspirations.

Work directly with public throughout process and ensure input is reflected in alternatives.

Renovation Plan Opportunities

- Balance
 - High expectations of citizens and public officials vs. project budget realities
 - Enhancing recreation vs. enhancing the environment
 - Minimizing the impacts of water to the site vs. maximizing benefits of water for the site
 - Celebrating history and tradition vs. embracing change and innovation

Join the Conversation...

Renovation Plan Opportunities

Balancing recreational and environmental enhancements
